

The Bain Centre in WLH

Located directly adjacent to the main foyer on the second floor, the Bain Centre is a "home away from home" for ECE students. The facility has both casual seating and work tables, as well as whiteboards on which students can write notes during discussions. There are a large number of computers for students to use for their assignments and projects, and because Walter Light Hall has a wireless network, students can also use their laptops for Internet access whenever they are working in the Bain Centre.

The Bain Centre is in part supported by a generous donation from the Bain family for the purpose of ensuring a positive learning experience for undergraduate students making use of the extensive software applications in the field of Electrical and Computer Engineering.

When you are working with your student colleagues in the Bain Centre:

- Please keep the lab clean
- Do not disconnect or rearrange the computing equipment
- No food or drinks at the work stations – water only
- Please contact ecetech@queensu.ca for any hardware or software issues.
