Postdoctoral Fellowship:  
Computer Vision and Machine Learning

Robotics and Computer Vision Lab  
Dept. Electrical and Computer Engineering  
Queen’s University, Kingston, Ontario, Canada

A Postdoctoral Fellowship is available in the Robotics and Computer Vision Lab (RCVLab) in the Department of Electrical and Computer Engineering at Queen’s University. The position will be under the supervision of Prof. Michael Greenspan, and funding is available for one year, with the potential for an additional year’s extension. The ideal candidate will have demonstrated expertise in one or more of the following areas:

- Computer Vision
- 3D Range Data Processing
- Object Recognition, Pose Determination and Tracking
- Machine Learning and CNNs

The Postdoctoral Fellow will be actively involved in all aspects of the RCVLab and Dr. Greenspan’s research group, including: research and development, student supervision, project management, co-publication, grant writing. Applicants are expected to have completed, or be close to completing their PhD degree. The salary for this position is competitive, with an ideal start date of fall 2018.

Queen’s University is committed to employment equity and diversity in the workplace, and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadian citizens and Permanent Residents will be given priority. The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation, please contact: Grier Owen, ECE, at grier.owen@queensu.ca or phone number 613-533-6078.

More information about Dr. Greenspan’s research is available at http://rcvlab.ece.queensu.ca

To apply, email a c.v. to michael.greenspan@queensu.ca with “PDF Application 2018” in the subject line.
