

**Department of Electrical and Computer Engineering
Term Adjunct Position
Academic Year 2017-18**

Posting Date: 11 September 2017
Closing Date: 02 October 2017

The Department of Electrical and Computer Engineering at Queen's University requests applications from suitable qualified candidates interested in teaching the following undergraduate course in the 2015-16 academic session.

Winter Term Course: January 1, 2017 – April 30, 2017

Anticipated course enrolment: 204

Course Description

ELEC 299 **Mechatronics Project** W K 1.5

A team design project based around an autonomous, programmable, robotic vehicle, following on from project activity in APSC 200. Students explore different sensors and software strategies for vehicle control and navigation, in addition to wiring up sensor and motor circuits. The design goal is to configure and program a vehicle to take part in a year-end competition in which robots compete head-to-head on a pre-defined playfield under established competition rules. A final project report must be produced that documents the experimentation, design, and testing. A final exam tests knowledge of sensors and software. (0/0/0/0/18)

PREREQUISITES: ELEC 221, ELEC 271

COREQUISITES: ELEC 252, ELEC 280

Qualifications:

Minimum of a M.A.Sc. in Engineering or a related field, or a BAsC in Engineering with extensive practical experience in engineering communications. Previous teaching experience at the University level will be preferred. Candidates should have excellent communication and presentation skills.

Course Syllabus can be found at:
